2. **2013 Hammonton Utility & Road Program (ARH #11-40046):**

NJEIT has accepted change orders #13 through #16. NJEIT has also requested that our office submit change orders #17 and #18 to their office for concurrence even though the items on these change orders are not eligible for reimbursement by NJEIT. Those change orders were submitted to NJEIT on June 6, 2017 and we are awaiting concurrence which we believe to be a formality. Once this occurs we will be able to officially close the project out with the Contractor. Since we believe approval of these change orders to be a formality we are recommending $156,000.00 of the $160,000.00 owed to the contractor for claims is paid at this time with the balance to be paid once change orders #17 and #18 are approved by NJEIT.

**Action Requested:**

**SEWER AND WATER ACTION ITEMS:**

3. **Well #4 Screen Replacement (ARH #11-30165/2017-0048):**

AC Schultes has completed the installation of the well liner and results from the water quality testing are currently pending. A production test was performed late last week which indicated the well performance as a result of the liner installation has dropped from 11.9 gallons per foot of drawdown to about 7.5 gallons per foot. Given the current column length of the pump this loss in well specific capacity will limit the pumping to about 750 GPM. Rather than operating at this lower capacity, which could result in a lesser NJDEP firm source capacity rating, it is recommended that the column length be extended 40’. The additional length will allow for an equal increase in available drawdown and about 300 GPM of additional flow. AC Schultes has provided a cost of **$4,878.00** for the additional 40’ of column pipe and 1-1/2 stainless steel shaft. The total per foot cost of $122.00 for the steel column pipe and stainless steel shaft is reasonable given our knowledge of similar work. Additionally, after disassembly of the pump, significant wear of the stuffing box shaft and packing were noted (possibly as a result of the continual pumping of sand). The contractor has provided an extra work cost of **$1,916.00** to refurbish these components. We will review these items with the PWTC and if acceptable, seek approval from Council and issuance of a PO for the work. Given the peak demand season for water supply will begin this month, we view the additional work scope to be an emergent condition that must be addressed. We have attached a copy of the AC Schultes proposal dated 6/13/17 for review and consideration.

**Action Requested:**
If satisfactory with the PWTC, we would recommend approval from Council to complete the following additional work at the Well #4 site in order for the well to properly operate at the design NJDEP firm source capacity rating in order to meet the peak season demands.

1. Addition column pipe and stainless steel shaft - $4,878.00
2. Refurbish stuffing box shaft and packing - $1,916.00

The authorization would be subject to certification of available funds.

Resolution #075-2017 Corrective Action Plan

Corrective Action Plan of the Town of Hammonton, County of Atlantic, State of New Jersey, for the year 2016.

WHEREAS, in accordance with the requirements of the Division of Local Government Services, at the completion of the audit, the local government unit shall prepare a Corrective Action Plan to address each audit finding in the current year audit report; and

WHEREAS, the Corrective Action Plan of the Town of Hammonton for the 2016 Report of Audit is as follows:

Finding No. 2016-001:
Condition:
A calculation of the actuarially calculated Other Post Employment Benefits (OPEB) obligation for the future cost of dental and vision insurance coverage to be paid by the Town for retired employees was not obtained.

Recommendation: That the Town obtain the actuarially calculated Other Post Employment Benefits (OPEB) obligation for the future cost of dental and vision insurance coverage to be paid by the Town for retired employees.

Corrective Action: This required disclosure is mandated by an accounting disclosure standard adopted by the Governmental Accounting Standards Board (GASB) Statement No. 45. In New Jersey, municipalities and counties report and budget under regulatory accounting practices and therefore are not required to “book” OPEB future obligations. The Town carries its medical health insurance with the State Health Benefits Program (SHBP). The required disclosure, with which the Town complies, only references where information can be found on the SHBP and is not required to include any future obligation. The dental and vision insurance coverage is contracted through a private carrier and only represents less than 10% of the Town’s total annual SHBP obligation. The Chief Financial Officer and the Town Accountant have exhausted numerous possibilities to have these calculations prepared at no cost to the taxpayers without success. Therefore, since there is no financial impact on the Town for not
obtaining the actuarially calculated obligation for its future cost of dental and vision insurance coverage for retired employees, the Town will continue to evaluate the cost/benefit of budgeting taxpayer funds in future budget years in order to solely comply with a financial disclosure requirement that has no financial impact on the Town's current operations.

BE IT RESOLVED, that the Corrective Action Plan for the 2016 Report of Audit of the Town of Hammonton be approved by the Governing Body of the Town of Hammonton; and

BE IT FURTHER RESOLVED, that one certified copy of this resolution be filed with the Division of Local Government Services.
