Independent Auditor's Report

The Honorable Mayor and
Members of Town Committee
Town of Hammonton, New Jersey

Report on the Financial Statements

We have audited the accompanying balance sheets - regulatory basis of the various funds and account group of the Town of Hammonton, as of December 31, 2016 and 2015, the related statement of operations and changes in fund balance - regulatory basis for the years then ended, and the related statement of revenues - regulatory basis and statement of expenditures - regulatory basis of the various funds for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles.

As described in Note 1 of the financial statements, the financial statements are prepared by the Town of Hammonton on the basis of the financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the Town of Hammonton as of December 31, 2016 and 2015, or changes in financial position for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion the financial statements referred to above present fairly, in all material respects, the regulatory basis balance sheets and account group as of December 31, 2016 and 2015, the regulatory basis statements of operations for the years then ended and the regulatory basis statements of revenues and expenditures for the year ended December 31, 2016 in accordance with the basis of financial reporting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Hammonton's basic financial statements. The supplementary information listed in the table of contents and the letter of comments and recommendations section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information listed in the table of contents is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information listed in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The letter of comments and recommendations section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 5, 2017 on our consideration of the Town of Hammonton's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Hammonton's internal control over financial reporting and compliance.

Very truly yours,

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Description of Financial Reporting Entity

The Town of Hammonton was incorporated in 1866 and is located in Southern New Jersey in Atlantic County. The population according to the 2010 census is 14,791.

The Town is governed by a Mayor and a six-member Town Council. The mayor is the chief executive officer and Council is the legislative Body of the Town. The Mayor is elected to a four-year term and three Town Council members are elected to alternating two-year terms. The Town Clerk monitors the daily administrative responsibilities.

Component Units

The Town of Hammonton had no component units as defined by Governmental Accounting Standards Board Statement No. 14, as amended by GASB Statements No. 39 and No. 61.

B. Description of Funds

The accounting policies of the Town of Hammonton conform to the accounting principles applicable to municipalities that have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with the respect to public funds. Under this method of accounting, the Town of Hammonton accounts for its financial transactions through the following separate funds:

Current Fund

The Current Fund accounts for resources and expenditures for governmental operations of a general nature, including Federal and State Grant Funds.

Trust Funds

The various Trust Funds account for receipts, custodianship and disbursement of funds in accordance with the purpose, for which, each fund was created.

General Capital Funds

The General Capital Fund accounts for the receipt and disbursement of funds for the acquisition of general facilities, other than those acquired in the Current Fund.

Water and Sewer Utility Operating and Capital Funds

The Water and Sewer Utility Operating and Capital Funds account for the operations and acquisitions of capital facilities of municipally owned Water and Sewer Utilities.

Water and Sewer Utility Assessment Trust Fund

The Water and Sewer Utility Assessment Trust Fund accounts for special assessments levied against property owners for water and sewer improvements which benefit property owners, rather than the Town as a whole.

General Fixed Assets Account Group

All fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in governmental funds.

C. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from generally accepted accounting principles applicable to local governmental units. The more significant policies in New Jersey follow.

A modified accrual basis of accounting is followed with minor exceptions.

Revenues – are recorded as received in cash except for certain amounts that are due from other governmental units. Receipts from Federal and State grants are realized as revenue when anticipated in the Town budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the Town's current fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due to the Town which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

Expenditures – are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements. Appropriation reserves covering unencumbered appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts that may be canceled by the Governing Body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis. Compensated absences are treated on a pay as you go basis with no amount charged to operations in the year incurred.

<u>Foreclosed Property</u> - Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired, and is fully reserved. Ordinarily, it is the intention of the municipality to resell foreclosed property, in order to recover all or a portion of the delinquent taxes or assessments by returning the property to a taxpaying basis. For this reason, the value of foreclosed property has not been included in the General Fixed Assets Account Group. If such property is converted to municipal use, it will be recorded in the General Fixed Assets Account Group.

<u>Interfunds</u> - Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Interfund receivables in the Current Fund are recorded with offsetting reserves, which are created by charges to Fund Balance. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

<u>Inventories of Supplies</u> - The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various balance sheets.

<u>General Fixed Assets</u> – The Town has developed a fixed assets accounting and reporting system, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles.

<u>Utility Fixed Assets</u> – Property and equipment purchased by a utility fund are recorded in the utility capital account at cost and are adjusted for disposition and abandonment. The amounts shown do not represent replacement cost or current value. The Reserve for Amortization and Deferred Reserve for Amortization accounts in the utility capital fund represent charges to operations for the cost of acquisition of property and equipment and improvements and contributed capital.

As required by New Jersey Statutes, foreclosed property is reported in the current operating fund of the municipality.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public Domain ("Infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks, and drainage systems, are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for land which is valued at estimated market value at the time the land is foreclosed or donated. Land purchased by the valued at cost. Expenditures for long lived assets with an original cost in excess of \$2,500 are capitalized.

No depreciation has been provided for in the financial statements.

Expenditures for construction in progress are recorded in the Capital Funds until such time as the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital, have not been accounted for separately.

The following schedules are a summarization of the changes in general fixed assets for the years ended December 31, 2016 and 2015.

<u>Capitalization of Interest</u> – It is the policy of the Town of Hammonton to treat interest on projects as a current expense and the interest is included in the current operating budget.

<u>Use of Estimates</u> – the preparation of financial statements in conformity with generally accepted accounting principles or the regulatory basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Deferred Charges

The recognition of certain expenditures is deferred to future periods. These expenditures, or Deferred Charges, are generally overexpenditures of legally adopted budget appropriations made in accordance with N.J.S.A. 40A:4-46 et al. Deferred charges are subsequently raised as items of appropriation in budgets of succeeding years.

Property Tax Revenues

Property tax revenues are collected in quarterly installments due February 1st, May 1st, August 1st, and November 1st. Property taxes unpaid are subject to tax sale in accordance with statutes. The amount of tax levied, includes not only the amount required in support of the Town's annual budget, but also the amounts required in support of the entities that follow. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the Town's Current Fund; accordingly, such amounts are not recorded as revenue until collected. GAAP requires such revenues to be recognized when they are available and measurable reduced by an allowance for doubtful accounts.

Reserve for Uncollected Taxes

The inclusion of the "Reserve for Uncollected Taxes", appropriation in the Town's annual budget protects the Town from taxes not paid currently. The minimum amount of the reserve, determined by the percentage of collections experienced in the preceding year, is required to provide assurance that cash collected in the current year will provide sufficient cash flow to meet expected obligations.

D. Required Financial Statements

The State of New Jersey requires the following financial statements to be presented for each fund on the regulatory basis of accounting: Balance Sheet, Statement of Operations and Changes in Fund Balance, Statement of Revenue and Statement of Expenditures. These statements differ from those presented under Generally Accepted Accounting Principles, which requires a Statement of Net Position and Statement of Activities in addition to the fund financial statements.

E. Comparative Data

Comparative total data for the prior year has been presented in the accompanying Balance Sheets and Statement of Operations in order to provide an understanding of changes in the Town's financial position. However, comparative (i.e. presentation of prior year totals by fund type) data has not been presented in the Statement of Revenue – Regulatory Basis and Statement of Expenditures – Regulatory Basis since their inclusion would make the statements unduly complex and difficult to read.

F. Recent Accounting Pronouncements Not Yet Effective

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 74 "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans". This statement, which is effective for fiscal periods beginning after June 15, 2016, will not have any effect on the Town's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75 "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". This statement, which is effective for fiscal periods beginning after June 15, 2017, will not have any effect on the Town's financial reporting.

In January 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 80 "Blending Requirements for Certain Component Units – an amendment of GASB Statement No. 14". This statement, which is effective for fiscal periods beginning after June 15, 2016, will not have any effect on the Town's financial reporting.

In March 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 81, "Irrevocable Split-Interest Agreements". This statement is effective for fiscal periods beginning after December 15, 2016, will not have any effect on the Town's financial reporting.

In March 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 82, "Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No.73". This statement is effective for fiscal periods beginning after June 15, 2016, will not have any effect on the Town's financial reporting, however will affect the disclosure of pension related items.

In November 2016, the Governmental Accounting Standards Board (GASB) issued Statement No. 83, "Certain Asset Retirement Obligations". This statement is effective for fiscal periods beginning after June 15, 2018, will not have any effect on the Town's financial reporting.

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, "Fiduciary Activities". This statement is effective for fiscal periods beginning after December 15, 2018, will not have any effect on the Town's financial reporting.

NOTE 2: BUDGETARY INFORMATION

Under New Jersey State Statutes, the annual budget is required to be a balanced cash basis document. To accomplish this, the municipality is required to establish a reserve for uncollected taxes. The 2016 and 2015 statutory budgets included a reserve for uncollected taxes in the amount of \$1,052,934.13 and \$1,004,224.14, respectively. To balance the budget, the municipality is required to show a budgeted fund balance. The amount of fund balance budgeted to balance the 2016 and 2015 statutory budgets was \$1,490,000.00 and \$1,250,000.00, respectively.

The Chief Financial Officer has the discretion of approving intra department budgetary transfers throughout the year. Inter department transfers are not permitted prior to November 1. After November 1, these transfers can be made in the form of a resolution and approved by Town Council. The following significant budget transfers were approved in the 2016 and 2015 calendar years.

| | _ | 2016 | 2015 |
|-------------------------------|----|----------|----------|
| Assesment of Taxes | _ | | |
| Reserve for Tax Appeals | \$ | - | 343,991 |

| Street Lighting | | | |
| Other Expenses | | (47,000) | - |
| Municipal Airport | | | |
| Other Expenses | | - | 13,500 |

NJSA 40A:4-87 permits special items of revenue and appropriations to be inserted into the annual budget when the item has been made available by any public or private funding source and the item was not determined at the time of budget adoption. The following budget insertions were approved during the 2016 and 2015 calendar years:

| | 2016 | 2015 |
|---|-----------------|-----------|
| Recycling Tonnage Grant | \$ 35,073.71 | 48,185.81 |

| Drive Sober or Get Pulled Over | 10,000.00 | 10,000.00 |
| Clean Communities Grant | 42,581.90 | 37,215.88 |

The municipality may make emergency appropriations, after the adoption of the budget, for a purpose which was not foreseen at the time the budget was adopted or for which adequate provision was not made therein. This type of appropriation shall be made to meet a pressing need for public expenditure to protect or promote the public health, safety, morals or welfare or to provide temporary housing or public assistance prior to the next succeeding fiscal year. Emergency appropriations, except those classified as a special emergency, must be raised in the budget of the succeeding year. Special emergency appropriations are permitted to be raised in the budgets of the succeeding three or five years. In 2016, the Town approved \$18,000 in emergencies that will be raised in the subsequent budget. There was \$368,991 in emergency appropriations authorized by Town Council during the 2015 calendar year.

NOTE 3: CASH

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The municipality's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in new Jersey Statues 40A:5-15.1(a) that are treated as cash equivalents. Under the act, all demand deposits are covered by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the municipality in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds or funds that may pass to the municipality relative to the happening of a future condition. As of December 31, 2016, \$125,702.15 of the municipality's bank balance of \$6,965,563.66 was exposed to custodial credit risk. As of December 31, 2015, \$127,746.69 of the municipality's bank balance of \$7,907,340.61 was exposed to custodial credit risk.

NOTE 4: INVESTMENTS

Interest Rate Risk. The municipality does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 40A:5-15.1(a) limits the length of time for most investments to 397 days.

Credit Risk. New Jersey Statutes 40A:5-15.1(a) limits municipal investments to those specified in the Statutes. The type of allowable investments are Bonds of the United States of America or the local unit or school districts of which the local unit is a part of; obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk. The municipality places no limit on the amount the Town may invest in any one issuer.

Custodial Crest Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Investment securities are exposed to custodial credit risk of the securities are uninsured, are not registered in the name of the Town, and are held by either the counterparty or the counterparty's trust department or agent but not in the Town's name. All of the Town's \$371,337.19 investments in the United States treasury obligations, government obligations, FNMA's, federal farm credit banks and private corporations are held by the counterparty, not in the name of the Town.

NOTE 7: COMPENSATED ABSENCES

The Town has permitted employees to accrue unused vacation and sick time, which may be taken as time off or paid at a later date at an agreed upon rate with a maximum payout of \$12,000.00. The monetary value of these earned and unused employee benefits has not been accrued by, either charges to operations, or to budgets of prior years, although in some cases they might be material, since the realization of this liability may be affected by conditions which preclude an employee from receiving full payment of the accrual. At December 31, 2016, the Town estimates this liability to be approximately \$330,252.56 based on 2016 pay rates and compensated absence balances.

NOTE 8: TAXES COLLECTED IN ADVANCE

Taxes collected in advance are recorded as cash liabilities in the financial statements. Following is a comparison of the liability for the previous two years:

| | Balance | Balance |

NOTE 9: PENSION FUNDS

Substantially all of the Town's employees participate in the Public Employees' Retirement System (PERS) or the Police and Firemen's Retirement System (PFRS) cost-sharing multiple-employer defined benefit plans which has been established by State Statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System. This report may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton New Jersey, 08625 or the report can be accessed on the internet at http://www.state.nj.us/treasury/pensions/annrpts.shtml.

Public Employees' Retirement System

The Public Employees' Retirement System was established in January, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full time employees of the State or any county, municipality, school district or public agency provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

Police and Fireman's Retirement System

The contribution policy for the Police and Fireman's Retirement System (PFRS) is set by N.J.S. A 43:16 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PFRS provides for employee contributions of 10% of employees' annual compensation, as defined. Employers are required to contribute based on an actuarially determined rate.

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program (DVRP) was established as of July 1, 2008 under the provisions of Chapter 92, P.L. 2008 and Chapter 103, P.L. 2008 (N.J.S.A. 43:15C-1 et seq). The DCRP is a cost sharing multiple-employer defined contribution pension fund. The CDRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et seq.

Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PERS provides for employee contributions of 6.92% through June 30, 2015 and 7.06% thereafter of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in PERS. PERS provided for employee contributions of 7.06% through June 30, 2016 and 7.20% thereafter of employee's annual compensation, as defined. The Town's contributions to PERS for the years ended December 31, 2016, 2015 and 2014 were \$241,618, \$260,178, and \$231,785 respectively, equal to the required contributions for each year.

The contribution policy for the PFRS is set by N.J.S.A. 43:16 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PFRS provides for employee contributions of 10.0% of employees' annual compensation, as defined.

Employers are required to contribute at an actuarially determined rate. The Town's contributions to PFRS for the years ended December 31, 2016, 2015 and 2014 were \$588,191, \$570,219, and \$540,128 respectively, equal to the required contributions for each year.

Significant Legislation

Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of ¼ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5
 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increase from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, special retirement under the PFRS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to 1/60th from 1/55th, and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PFRS, the law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for social security, and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is

attained. The law also requires the State to make its full pension contribution, defined a 1/7th of the required amount, beginning in fiscal years 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006 report of the Joint Legislative Council on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

Note 10: PENSION LIABILITIES

In 2012, the Governmental Accounting Standards Board issued GASB statement 68. This statement is effective for fiscal years beginning after June 15, 2014. This statement changes the method of reporting the Town's pension liabilities. However, due to the fact that the Town reports on the regulatory basis of accounting, no financial statement impact will be recognized.

The following represents the municipality's pension liabilities as June 30, 2016:

Public Employees' Retirement System

The Town has a liability of \$8,900,685 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2016, the Town's proportion is .03005248680%, which was an increase of 6.93% from its proportion measured as of June 30, 2015.

For the year ended December 31, 2016, the Town would have recognized pension expense of \$826,627. At December 31, 2016, the Town would report deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

| | Deferred Outflows of Resources | | Deferred Inflows |
|--|--------------------------------|--------------|------------------|
| | | | of Resources |
| Changes of assumptions | \$ | 1,843,746.00 | |
| Difference in expected and actual experience | | 165,526.00 | |

| Total | \$ | 2,747,717.00 | 432,704.00 |

Amounts that would be reported as deferred outflows of resources and deferred inflows of resources related to pensions would be recognized in pension expense as follows:

|------------------------|--------------------|
| 2017 | \$ 523,901.87 |
| 2018 | 523,901.87 |

| 2021 | 167,079.28 |
| Total | \$ 2,315,013.00 |

Actuarial Assumptions

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation rate 3.08%

Salary increases:

Through 2026 1.65% - 4.15% (based on age)

Thereafter 2.65% - 5.15% (based on age)

Investment rate of return: 7.65%

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2014 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates

of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflations. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2016 are summarized in the following table:

| | | Long-Term |
|-----------------------------|------------|----------------|
| | Target | Expected Real |

Discount Rate

The discount rate used to measure the total pension liability was 3.98% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 30% of the actuarially determined contributions and the local employers contributed 100% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2034. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2034 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 3.98%, as well as what the Municipality's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.98%) or 1-percentage point higher (4.98%) than the current rate:

| | 1% | Current Discount | 1% |

Pension plan fiduciary net position.

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

Police and Firemen's Retirement System

The Town has a liability of \$14,204,445 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Municipality's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2016, the Town's proportion is .07435886370%, which is an increase of 2.76% from its proportion measured as of June 30, 2015.

For the year ended December 31, 2016, the Town would have recognized pension expense of \$1,528,970. At December 31, 2016, the Town would have reported deferred outflows of resources and deferred inflows of resources related to PFRS from the following sources:

| | ferred Outflows | Deferred Inflows |
|--|---------------------|------------------|
| | of Resources | of Resources |
| Changes of assumptions | \$ 1,967,432.00 | |
| Difference in expected and actual experience | | 93,112.00 |
| Net difference between projected and actual earnings | | |

| | | |
| Total | \$ 3,206,655.00 | 253,730.00 |

Amounts that would be reported as deferred outflows of resources and deferred inflows of resources related to pensions would be recognized in pension expense as follows:

| Year ended | |
|------------|--------------------|
| June 30, | |
| | |
| 2017 | \$ 714,054.85 |
| 2018 | 714,054.85 |

| 2020 | 555,219.96 |
| 2021 | 21,833.67 |
| Total | \$ 2,952,925.00 |

Actuarial Assumptions

The total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation of July 1, 2015, which was rolled forward to June 30, 2016. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation rate 3.08%

Salary increases:

Through 2026 2.10% - 8.98% (based on age)

Thereafter 3.10% - 9.98% (based on age)

Investment rate of return: 7.65%

Pre-retirement mortality rates were based on the RP-2000 Pre-Retirement mortality tables projected thirteen years using Projection Scale BB and then projected on a generational basis using the plan actuary's modified 2014 projection scales. Post-retirement mortality rates for male service retirements and beneficiaries are based on the RP-2000 Combined Healthy Mortality Tables projected one year using Projection Scale AA and two years using the plan actuary's modified 2014 projection scales, which was further projected on a generational basis using the plan actuary's modified 2014 projection scales. Post-retirement mortality rates for female service retirements and beneficiaries were based on the RP-2000 Combined Healthy Mortality Tables projected thirteen years using Projection Scale BB and then two years using the plan actuary's modified 2014 projection scales, which was further projected on a generational basis using the plan actuary's modified 2014 projection scales. Disability mortality rates were based on special mortality tables used for the period after disability retirement.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2013.

In accordance with State statute, the long-term expected rate of return on plan investments (7.65% at June 30, 2016) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2016 are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|-----------------------------|-------------------|--|
| | | |
| Cash | 5.00% | 0.87% |
| U.S. Treasuries | 1.50% | 1.74% |
| Investment Grade Credit | 8.00% | 1.79% |

| REIT | 5.25% | 5.63% |

Discount Rate

The discount rate used to measure the total pension liability was 5.55% as of June 30, 2016. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.65%, and a municipal bond rate of 2.85% as of June 30, 2016, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the non-employer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 30% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2050. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2050, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate.

The following presents the collective net pension liability of the participating employers as of June 30, 2016, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

| | 1% | Current Discount | 1% |
|-------------------------------|------------------|------------------|------------|
| | Decrease | Rate | Increase |
| | (4.55%) | (5.55%) | (6.55%) |
| Town's proportionate share of | | | |
| the net pension liability | \$ 18,057,496 | 14,204,445 | 11,063,776 |

In addition to the PFRS liabilities listed above, a special funding situation exists for the Local employers of the Police and Fire Retirement System of New Jersey. The State of New Jersey, as a non-employer, is required to pay the additional costs incurred by Local employers under Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The June 30, 2016 State special funding situation net pension liability amount of \$1,604,141,087.00, is the accumulated differences between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date. The fiscal year ending June 30, 2016 State special funding situation pension expense of \$204,886,666.00 is the actuarially determined contribution amount that the State owes for the fiscal year ending June 30, 2016. The pension expense is deemed to be a State administrative expense due to the special funding situation.

The contribution policy for PFRS is set by N.J.S.A. 43:16A and required contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2016, the State contributed an amount less than the actuarially determined amount.

Although the liabilities related to the special funding situation are the liabilities of the State of New Jersey, the proportionate share of the statewide liability allocated to the Town was 0.07435886370% for 2016. The net pension liability amount allocated to the Township was \$1,192,821.00. For the fiscal year ending June 30, 2016 State special funding situation pension expense of \$45,705.00 is allocated to the Town.

Detailed information about the pension plan's fiduciary net position is available in the separately issued PFRS financial report.

NOTE 11: POST-RETIREMENT BENEFITS

Plan Description

The Town of Hammonton contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey, Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 53:14-17.25 et. seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP. The Town has adopted a resolution authorizing their participation in the State Health Benefit Program and Local Prescription Drug Program.

The New Jersey State Health Benefits Plan issues a stand-alone financial report under GASB 43. To view the report, go to http://www.state.nj.us/treasury/pensions/health-benefits.shtml.

Funding Policy

Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Town on a monthly basis. The Town funds the costs of retirees post-retirement health benefits through current year budget appropriations.

The Town contributes to SHBP for the years ended December 31, 2016, 2015, and 2014, were \$636,755.04, \$608,601.72, and \$590,344.13 respectively, which equaled the required contributions for each year. There were approximately 33 retired participants eligible at December 31, 2016.

In addition to the benefits described above, the Town provides post-employment dental and vision care benefits, at its cost, to retired employees who have retired after twenty-five years or more of service with the Town. The Town currently accounts for and finances such expenses on a pay-as-you-go basis. The expense for these benefits for the year ended December 31, 2016 was \$29,323.76.

A calculation of the actuarially calculated Other Post Employment Benefits (OPEB) obligation for the future cost of dental and vision insurance coverage to be paid by the Town for retired employees was not obtained.

NOTE 12: PROPERTY TAXES

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners, but it often results in a divergence of the assessment ratio to true value.

Upon the filing of certified adopted budgets by the municipality, the local and regional school districts, and the county, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund budgets. The regulatory provision for the assessment of property, levying of taxes and the collection thereof is set forth in N.J.S.A. 54:4 et seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1 respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes, due February 1 and May 1 of the succeeding fiscal year, are based upon one-half of the current year's total tax.

Tax installments not paid on or before the due date, are subject to interest penalties of 8% per annum on the first \$1,500.00 of the delinquency, and 18% per annum on any amount in excess of \$1,500.00. Pursuant to P.L. 1991, c. 75, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed 6% of the amount of the delinquency. The interest and penalties are the highest permitted under New Jersey Statutes. Delinquent taxes open for one year or more are annually included in the tax sale in accordance with New Jersey statutes.

The New Jersey statutes provide a taxpayer with remedial procedures for appealing an assessment deemed excessive. Prior to February 1 of each year, the municipality must mail to each property owner a notice of the

current assessment and taxes on the property. The taxpayer has a right to petition the County Tax Board, on or before April 1, for review. Due to errors or delinquencies in notices sent to property owners, the April 1 deadline to file an appeal petition may be extended. The County Board of Taxation has the authority after a hearing to decrease or reject the appeal petition. These adjustments are usually concluded within the current tax year, and reductions are shown as canceled or remitted taxes for that year. If the taxpayer feels the County Board of Taxation unsatisfactorily reviewed the petition, appeal may be made to the Tax Court of New Jersey for further hearing. Some Tax Court appeals may take several years prior to settlement, and any losses in tax collection from prior years, are charged to a reserve set aside for this purpose or directly charged to Fund Balance.

NOTE 13: ECONOMIC DEPENDENCY

The Town of Hammonton is not economically dependent on any one funding agency within the Town or the State of New Jersey.

NOTE 14: FUND BALANCES APPROPRIATED

The following schedule details the amount of Fund Balances available at the end of each year and the amounts utilized in the subsequent year's budgets:

| Utility Operating Fund 21,669.88 | |
| \$ 340,759.60 340,759 | .60 |

The amounts due to or from the grant fund are due to the fact that there is no separate grant fund bank account. The amounts due to or from the utility funds fund are due to cash received in the current fund and not transferred prior to year end. It is anticipated that all interfunds will be liquidated during the current calendar year.

NOTE 16: FEDERAL AND STATE GRANTS

In the normal course of operations, the Town receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement that may arise as a result of these audits is not believed to be material.

NOTE 17: RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the 2016 and 2015 calendar years, the Town did not incur claims in excess of their coverage and the amount of coverage did not significantly decrease.

<u>Property and Liability Insurance</u> – The Town maintains commercial insurance coverage for property, liability and surety bonds.

New Jersey Unemployment Compensation Insurance – Effective January 1, 1997, the Town elected the "Contributory Method" to fund its New Jersey Unemployment Compensation Insurance, which requires the Town to annually appropriate funds to pay the projected costs of contributions at the rate determined by the Commissioner of Labor. The expense for these benefits for the years ended December 31, 2016 and 2015 was \$19,020.43 and \$28,358.79 respectively.

NOTE 18: SANITARY LANDFILL ESCROW CLOSURE FUND

The Town of Hammonton operates a municipal landfills located in the southern part of town. The Sanitary Landfill Facility Closure and Contingency Fund Act of 1981 was enacted to provide funding, during the life of the landfill, of costs associated with the closure of sanitary landfills. The Act requires the owner or operator of every sanitary landfill to establish an escrow account for closure, and deposit on a monthly basis, an amount equal to \$1.00 per ton of solid waste accepted for disposal. No withdrawals may be made from the fund without written approval from the State Department of Environmental Protection and Energy.

As of August 1988, the landfill reached its holding capacity. However, the escrow closure fund balance at December 31, 2016 does not necessarily represent the estimated cost of closure as of that date. The required balance of the fund merely represents the amount required to be escrowed in accordance with the statute. Actual costs associated with closure are not known.

NOTE 19: CONTINGENT LIABILITIES

The Town is a defendant in several legal proceedings that are in various stages of litigation. It is believed that the outcome, or exposure to the Town, from such litigation is either unknown or potential losses, if any, would not be material to the financial statements.

NOTE 20: SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred between December 31, 2016 and May 5, 2017 the date the financial statements were available for issuance for possible disclosure and recognition in the financial statements and no items have come to the attention of the City that would require disclosure.

Independent Auditor's Report

The Honorable Mayor and Members of Town Committee Town of Hammonton, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the regulatory basis financial statements of the various funds and account group as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise Town's basic financial statements, and have issued our report thereon dated May 5, 2017, which was adverse due to being presented in accordance with the New Jersey regulatory basis of accounting.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Very truly yours,

Schedule of Financial Statement Findings

This section identifies significant deficiencies, material weaknesses, and instances of noncompliance related to the financial statements that are required to be reported in accordance with *Government Auditing Standards* and with audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Finding No. 2016-001

Criteria or Specific Requirement

As described in the New Jersey Department of Community Affairs' Local Finance Notice 2007-15, Government Account Standards Board Statement No. 45 requires an actuarial calculation of Other Post Employment Benefits (OPEB) to be performed and disclosed in the Notes to the Financial Statements.

Condition

A calculation of the actuarially calculated Other Post Employment Benefits (OPEB) obligation for the future cost of dental and vision insurance coverage to be paid by the town for retired employees was not obtained.

Effect

The OPEB disclosure included in the Notes to the Financial Statements is incomplete as it does not include a calculation of the future cost of providing dental and vision coverage for retired employees.

Cause

Town officials have determined that it is not cost effective to obtain the actuarially calculated Other Post Employment Benefits (OPEB) obligation for the future cost of dental and vision insurance coverage paid by the Town for retired employees.

Recommendation

That the Town obtain the actuarially calculated Other Post Employment Benefits (OPEB) obligation for the future cost of dental and vision insurance coverage paid by the Town for retired employees.

Status of Prior Year Recommendations

LETTER OF COMMENTS AND RECOMMENDATIONS

FOR THE YEAR ENDED

DECEMBER 31, 2016

GENERAL COMMENTS

Contracts and Agreements Required to be Advertised for N.J.S. 40A:11-4

N.J.S. 40A:11-4 states, "Every contract or agreement for the performance of any work or the furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding in the aggregate \$40,000 except by contract or agreement.

The governing body of the Town has the responsibility of determining whether the expenditures in any category will exceed \$40,000 within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Town Counsel's opinion should be sought before a commitment is made.

Our examination of expenditures did not reveal payments in excess of \$40,000 "for the performance of any work or the furnishing or hiring of any materials or supplies" other than those where bids had been previously sought by public advertisement, awarded under state or county cooperative purchasing agreements, or where a resolution had been previously adopted under the provisions of N.J.S. 40A:11-6.

The minutes indicate that bids were requested by public advertising for the following:

- Utility Improvements
- Various Construction

Contracts and Agreements Requiring Solicitation of Quotations

N.J.S. 40A:11-6.1 states, "Prior to the award of any other purchase, contract or agreement, the contracting agent shall, except in the case of the performance of professional services, solicit quotations, whenever practical, on any such purchase, contract or agreement the estimated cost or price of which is \$6,000 or more."

Our examination of expenditures did reveal not purchases made in excess of \$6,000 without obtaining quotes as required by statute.

Collection of Interest on Delinquent Taxes and Assessments

The statute provides the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body, on February 22, 2016, adopted the following resolution authorizing interest to be charged on delinquent taxes:

WHEREAS, NJSA 54:4-67 governs the interest rates to be charged on delinquent taxes and allows the governing body to set a grace period not to exceed ten (10) calendar days, and

WHEREAS, interest on delinquent taxes may be fixed at a rate of 8% of the first \$1,500.00 of delinquency, and at a rate of 18% on that portion of the delinquent tax balance which is in excess of \$1,500.00; and

WHEREAS, P.L. 1991, c. 75, s. 39 provides that a penalty of 6% may be charged to a taxpayer with a delinquency in excess of \$10,000.00 who fails to pay the delinquency prior to the end of the fiscal year.

NOW, THEREFORE, BE IT RESOLVED, by the Mayor and Town Council of the Town of Hammonton, Atlantic County, State of New Jersey, as follows;

- 1. That the tax collector is hereby authorized and directed to charge 8% per annum on the first \$1,500.00 of taxes becoming delinquent after due date and 18% per annum on any amount of taxes in excess of \$1,500.00 becoming delinquent after due date.
- 2. That the Tax Collector is hereby authorized and directed to charge a 6% penalty to those properties who fail to pay delinquencies in excess of \$10,000.00 prior to the end of the fiscal year.
- 3. That the Tax Collector is instructed that no interest shall be charged if a payment of a tax installment is received by the Tax Collector within the tenth (10th) calendar day following the date upon which that tax installment became payable.

It appears from an examination of the collector's records that interest on delinquent taxes was collected in accordance with the foregoing resolution.

Delinquent Taxes and Tax Title Liens

The last tax sale was held on December 27, 2016 and was complete.

Inspection of tax sale certificates on file revealed that all tax sale certificates were available for audit.

The following comparison is made of the number of tax title liens receivable on December 31 of the last five years:

| | Number of |
|-------------|--------------|
| <u>Year</u> | <u>Liens</u> |
| 2016 | 123 |
| 2015 | 113 |
| 2014 | 104 |
| 2013 | 136 |
| 2012 | 113 |

It is essential to good management that all means provided by statute be utilized to liquidate tax title liens in order to get such properties back on a taxpaying basis.

Verification of Delinquent Taxes and Other Charges

A test verification of delinquent charts and current payments was made in accordance with the regulations of the Division of Local Government Services, including the mailing of verification notices as follows:

| | Number |
|--------------------------------|---------------|
| <u>Type</u> | <u>Mailed</u> |
| Payment of 2017 and 2016 Taxes | 10 |
| Delinquent Tax Balances | 1 |
| Municipal Court | 10 |

As of the date of this audit report, all verifications have not been returned. No problems were noted with the verifications that have been returned related to property taxes or municipal court.

Deposit of Municipal Funds

N.J.S. 40A:5-15 states, "All municipal funds shall be deposited within 48 hours upon receipt."

Our examination has revealed that municipal funds were all deposited within the mandated time.

Comparison of Tax Levies and Collections Currently

A study of this tabulation could indicate a possible trend in future tax levies. A decrease in the percentage of current collection could be an indication of a probable increase in future tax levies.

| | | Currently | |

A revaluation of properties was performed in 2014 in order to bring the property values in line with their true value. The revaluation was effective for the 2015 tax year.

Delinquent Taxes and Tax Title Liens

This tabulation includes a comparison, expressed in percentage, of the total delinquent taxes and tax title liens, in relation to the tax levies of the last five years.
